New Online Course: Introduction to DHS Nutrition Indicators

Written by: [The DHS Program](#)

26 Jan, 2022

Nutrition is a cornerstone of health and development. Tracking nutrition indicators is key to achieving Sustainable Development Goal 2 to end hunger, achieve food security and improved nutrition and promote sustainable agriculture.

Introduction to Nutrition Indicators in DHS Surveys, the latest open course offered on The DHS Program [Learning Hub](#), is available for free with a simple registration. This course is designed to orient professionals from government, civil society, multilateral organizations, and all data users to the nutrition indicators reported in DHS surveys. It is organized into 12 modules:

The DHS Program

The Demographic and Health Surveys (DHS) Program has collected, analyzed, and disseminated accurate and representative data on population,

health, HIV, and nutrition through more than 400 surveys in over 90 countries. The DHS Program is funded by the U.S. Agency for International Development (USAID). Contributions from other donors, as well as funds from participating countries, also support surveys. The project is implemented by ICF.
